

Károly Oelberg

Károly is the managing director of AACM Central Europe, an innovative Budapest-based consulting firm since 1996. The company was established as a member company of the Australian AACM International Group, and through an acquisition deal became part of Dames & Moore Group, one of the world's leading US environmental consultancy and engineering firms. AACM Central Europe was purchased by its current management in 1999, and operates since January 2000 as an independent private firm with its headquarters in Budapest and a representation office in Târgu Mureş (Romania).

The core business of AACM Central Europe Ltd lies in environment and sustainable energy sectors. Clients include the international donor agencies and financial institutions such as the European Commission, EIB EBRD, IFC, UNHCR, UK Foreign and Commonwealth Office as well as national and regional government agencies and municipalities. AACM Central Europe has also established a strategic working relationship with leading international environmental, engineering and other consultancy firms, and collaborates with them on private sector projects. AACM Central Europe has strong work experience in a wide variety of mostly Central and Eastern European (CEE) countries. The company is a member of the British Chamber of Commerce in Hungary since 2016.

Károly has 33 years of work experience in research, public service and consultancy. He obtained a master's degree in chemical engineering and has a postgraduate diploma in law and is a certified Body Auditor according to SERI's R2:2013 Standard.

Károly's work experience is particularly focused through environmental protection and development of the low-carbon economy. He has substantial gained experience in EU programming activities at multi-country, national and regional levels and implementation of EU funded projects in various CEE countries. Recently, he has been several times retained by the European Commission services as independent evaluator and/or rapporteur for the evaluation of Horizon 2020 proposals. f
